

2026 Purley Bury Tennis Club WhatsApp Community Policy & Privacy Statement

1. Purpose of the WhatsApp Community

The Purley Bury Tennis Club WhatsApp Community is a one-way communication channel used by the Club to share official information with members.

2. Community Structure

The Club uses a WhatsApp Community with an Announcement Group. Members self-join via an invitation link and may leave at any time. Members cannot see other members' contact details.

3. Administration & Access Control

Administrators manage the invitation link, monitor membership, and ensure that only current members use the Community. Members are responsible for joining and leaving themselves; however, administrators may remove individuals whose membership ends.

4. Data Collected & Used

We collect only mobile phone numbers and WhatsApp display names automatically through WhatsApp when members join. This information is used solely to verify membership and deliver announcements.

5. Privacy & Visibility

Members cannot see others' phone numbers. Only administrators can view the member list for administrative purposes.

6. Legal Basis for Data Use

Data is used under legitimate interest for essential club communication. By joining, members consent to receiving Club updates. Members may leave the Community at any time.

7. Member Responsibilities

Members must keep their contact number updated, join the Community using the official invitation link, and leave the Community if they no longer wish to receive updates or if they leave the Club.

8. Administrator Responsibilities

Administrators maintain confidentiality of member information, ensure only official updates are posted, oversee membership, and remove individuals when their Club membership ceases.

9. Joining and Leaving the Community

Members self-join using the official invitation link provided by the Club. Members may self-leave at any time using the Leave option in WhatsApp.

10. Review of Policy

This policy will be reviewed annually or when WhatsApp introduces major feature changes.
